PROFESSIONAL SUMMARY

AI & Data Science student at the University of Kashmir pursuing a career as a Full Stack AI Engineer. Skilled in Python, JavaScript, React, FastAPI, LangChain, and the OpenAI/Anthropic API ecosystem. Builds production-grade AI products and produces public technical content (ABTalks 60-Day Claude Challenge on LinkedIn). Seeking AI/ML Engineering Intern and Full Stack AI Intern roles at leading tech companies.

EDUCATION

B.Tech — Artificial Intelligence & Data Science | University of Kashmir, Srinagar, J&K | 2023 – Present

- Relevant Coursework: Machine Learning, Deep Learning, Data Structures & Algorithms, Statistics, NLP
- Active contributor to the AI/CS community; building hands-on projects alongside curriculum

EXPERIENCE

AI Content Creator & Educator | Self – LinkedIn (ABTalks) | Remote | 2025 – Present

- Produce educational AI posts for the '60 Days Claude Challenge' series; topics include Prompt Engineering, LLM internals, RAG, and AI product development
- Design custom SVG visual assets for each post, growing a technology-focused LinkedIn audience
- Translate complex AI/ML concepts into accessible, structured educational content

Frontend Developer (Freelance) | Independent Clients | Remote | 2024 – Present

- Designed and deployed responsive web applications using HTML, CSS, JavaScript, and React
- Integrated REST APIs and managed end-to-end deployments via GitHub Pages, Netlify, and Vercel
- Translated client requirements into polished, accessible UI/UX interfaces

PROJECTS

Circuit.IQ | Python · FastAPI · OpenAI API · React · Next.js | github.com/anayat-zahoor/circuit-iq

- [Flagship Project — add 1-sentence description of what Circuit.IQ does]
- [Add key technical achievement, e.g. latency improvement, scale, or accuracy metric]

RAG Document Chatbot | LangChain · ChromaDB · FastAPI · OpenAI API · React |

github.com/anayat-zahoor/rag-chatbot

- Engineered an end-to-end Retrieval-Augmented Generation system enabling semantic search across custom documents
- Implemented vector search with ChromaDB; achieved sub-2-second response latency on 500-page PDFs
- Deployed backend on Railway and frontend on Vercel; integrated token-usage observability and logging

Sentiment Analysis Web App | Python · HuggingFace Transformers · FastAPI · React |

github.com/anayat-zahoor/sentiment-app

- Fine-tuned a DistilBERT model on a custom dataset; achieved 91% accuracy on product review classification
- Exposed inference via a FastAPI REST endpoint; built a React dashboard for real-time predictions
- Containerised with Docker; automated CI/CD pipeline via GitHub Actions

AI Writing Assistant | Next.js · Anthropic API · Supabase · Stripe · Vercel | github.com/anayat-zahoor/ai-writer

- Built a full-stack SaaS writing tool powered by Claude; integrated Stripe subscription billing from day one
- Implemented authentication and database via Supabase; rate limiting with Upstash Redis; analytics via PostHog
- Shipped MVP in under 2 weeks with full observability across token usage, latency, and error logs

SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS, SQL

AI / ML: PyTorch, HuggingFace Transformers, LangChain, LangGraph, OpenAI API, Anthropic API

Databases & Vector Stores: ChromaDB, PostgreSQL, Supabase

Full Stack: React, Next.js (App Router), FastAPI, REST APIs

DevOps & Tools: Docker, Git, GitHub Actions, Vercel, Railway, Netlify

Payments & Infra: Stripe, Upstash Redis, PostHog

Design: Figma, SVG Asset Creation

CERTIFICATIONS

Machine Learning Specialization — DeepLearning.AI / Andrew Ng (Coursera) | 2025

Deep Learning Specialization — DeepLearning.AI (Coursera) | 2025

LangChain for LLM Application Development — DeepLearning.AI | 2025

Full Stack Open — University of Helsinki | 2024

TARGET ROLES

Seeking: AI/ML Engineering Intern · Full Stack AI Intern · LLM/NLP Engineer Intern · Backend AI Intern

Target Companies: Microsoft · OpenAI · Google · Anthropic · AI-first startups

Availability: Immediately available for remote/hybrid internship roles
