PROFESSIONAL SUMMARY

Motivated AI & Data Science student at the University of Kashmir building toward a career as a Full Stack AI Engineer. Proficient in Python, JavaScript, React, FastAPI, LangChain, and the OpenAI / Anthropic API ecosystem. Passionate about shipping production-grade AI products and creating public educational content (ABTalks 60-Day Claude Challenge on LinkedIn). Actively targeting AI/ML Engineering Intern and Full Stack AI Intern roles at leading tech companies.

EDUCATION

B.Tech — AI & Data Science | [University of Kashmir](#) • Srinagar, J&K 2023 – Present

- Coursework: Machine Learning, Deep Learning, Data Structures & Algorithms, Statistics, NLP
- Active member of the AI/CS community; building projects parallel to curriculum

EXPERIENCE

AI Content Creator & Educator | [Self — LinkedIn \(ABTalks\)](#) • Remote 2025 – Present

- Producing daily AI educational posts for the '60 Days Claude Challenge' series with custom SVG visual assets
- Content covers Prompt Engineering, LLM internals, RAG, and AI product building — growing a tech-focused audience
- Translating complex AI concepts into accessible formats, improving communication and technical writing skills

Frontend Developer (Freelance) | [Independent Clients](#) • Remote 2024 – Present

- Built and deployed responsive web applications using HTML, CSS, JavaScript, and React
- Integrated REST APIs and handled end-to-end deployment via GitHub Pages, Netlify, and Vercel
- Collaborated directly with clients to translate requirements into polished UI/UX

PROJECTS

Circuit.IQ | *Python · FastAPI · OpenAI API · React · Next.js* → github.com/anayat-bashir/circuit-iq

- [FLAGSHIP PROJECT] — Describe what Circuit.IQ does in 1 sentence here
- Key technical achievement or feature #1
- Key technical achievement or feature #2 (e.g. reduced latency by X%, handled Y users)

RAG Document Chatbot | *LangChain · ChromaDB · FastAPI · OpenAI API · React* → github.com/anayat-bashir/rag-chatbot

- Built an end-to-end Retrieval-Augmented Generation chatbot allowing users to query custom documents
- Implemented semantic vector search with ChromaDB; achieved < 2s response latency on 500-page PDFs
- Deployed backend on Railway and frontend on Vercel; added token-usage observability with logging

Sentiment Analysis Web App | *Python · HuggingFace Transformers · FastAPI · React* → github.com/anayat-bashir/sentiment-app

- Fine-tuned a DistilBERT model on custom dataset; achieved 91% accuracy on product review classification
- Exposed model via a FastAPI REST endpoint; built a React dashboard showing real-time predictions

- Containerised with Docker; CI/CD via GitHub Actions

AI Writing Assistant (Full Stack) | *Next.js · Anthropic API · Supabase · Stripe · Vercel* → github.com/anayat-bashir/ai-writer

- SaaS writing tool powered by Claude; integrated Stripe for subscription billing from day one
- Auth + database via Supabase; rate limiting with Upstash Redis; usage analytics via PostHog
- Shipped MVP in under 2 weeks; maintained full observability (token usage, latency, error logs)

SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS, SQL

AI / ML: PyTorch, HuggingFace Transformers, LangChain, LangGraph, OpenAI API, Anthropic API

Vector & Data: ChromaDB, PostgreSQL, Supabase

Full Stack: React, Next.js (App Router), FastAPI, REST APIs

DevOps & Tools: Docker, Git, GitHub Actions, Vercel, Railway, Netlify

Payments & Infra: Stripe, Upstash Redis, PostHog

Design: Figma, SVG Asset Creation
